Dear Mamei Sun
Thanks. Both 13 and 14 work for me. Please set the details and inform me. Bear in mind I'm traveling together with my wife Nili.
Looking forward

If Larry and you happened to be in SF area anytime between the 11th and the 14th i'll be very very glad to be able to visit you and Oracle and to have an opportunity to see how life look like from the cutting edge of world technology. We could also exchange notes on world events, geopolitics and the markets. Please let me know if that's possible this time.
